## WORK EXPERIENCE

### Software Engineer

FASCOM-IT (Artistic Denim Mill)

03/2022 - Present

### React/React Native Developer Outsource in Pakistan

08/2021 - 03/2022

#### Projects

- Bata App : Similarly, like UBER, the difference was it provides us the translators, for different languages. a user can book any translator on hourly basis.
- Run Mator App: This app was developed to have services of Mechanic for a user. If the user is stucked at somewhere in between, the user just opens this up and can declare it's issue and can book any mechanic for the respective service.
- Coverage Master: Coverage Book allows us to add coverage in bulk, generates screenshots and customize easily. We then get a comprehensive scope of how well a story has done as we can report links from coverage, the Domain Authority, online readership, coverage views and social shares.

Designation : Team Lead (React/React native)

### React/React Native Developer Tafsol Technologies

08/2020 - 08/2021

#### Projects

- Food order application - Like Food panda type (React Native)
- Rent Application - Users can see properties available for rent (React Native)
- Physical Fitness app - Users can compete friends in running by selecting desired track (React Native)
- Learning Management System(Reactjs)
- Mentgo.com - Talk with someone who's been in your shoes. Whether relationships, spirituality, career, identity, recovery or just someone to talk to, *MentGo* connects you

Designation : Senior Associate
